

We have a
DEAL.

**KAIZEN**
SAFETY GROUP INC

WHAT WE OFFER

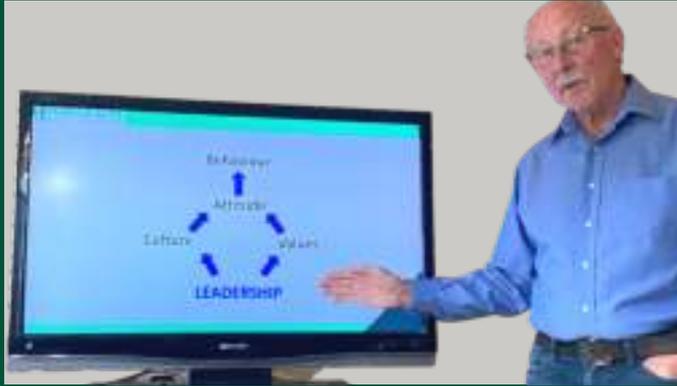

- ✓ **CUSTOM INTEGRATED PROGRAMS**
- ✓ **THEORY + PRACTICAL + SUPPORT**
- ✓ **QUANTITATIVE + QUALITATIVE**

Kaizen Safety Culture is not just another safety program. It is an investment in your people, with the long-term benefit of a shift in the paradigm which is your present culture of safety. Using our years of practical, hands-on, industrial safety experience, combined with proven safety behaviour philosophies and exercises, we will make a measurable difference in your organization's people, resulting in an empowered and motivated team.

- Current Safety Culture Assessments
- Gap Analysis for Change
- Classroom Facilitation
- Corporate Services
- On-Site Coaching
- Safety System Management
- Short & Long Term Program Options
- Measurable Change & Support Tracking

STEP #1 - ANALYSIS, EVALUATION & PROGRAM CONSTRUCTION

Our experts meet with your safety culture leadership to discuss your current system, your challenges, and the goals you would like to achieve. Post meetings, we will build a plan and program using both your information, ours, or a combination of both to introduce, deliver, and result in your improved safety culture system.

STEP #2 - INTERACTIVE TRAINING, WORKSHOPS & EXERCISES

Our Safety Culture Facilitator(s) hold in-person, classroom style instruction sessions applying your custom training, workshops, discussions, case studies, and team interactions as the first steps towards a truly interdependent and positive workplace culture.

STEP #3 - PRACTICAL COACHING, GUIDANCE & APPLICATION

Armed with new theoretical information and tools, our teams work with your people in your practical operational situations to help coach, mentor, and ensure implementation of your new program. This is our most effective tool in the practicality of your program and how effective it is to the organization and your people.

STEP #4 - PROGRESS REPORTING, CONTINUED SUPPORT, & RESULTS

Throughout the program's implementation, we will build and provide custom reporting based on your identified measurables. This allows for real results to be shown as LTIs, TRIF/TRIR, PSIs, Organizational Cost Savings, etc. and how your new program is making a difference in overall employee buy-in, communication, and behaviour.
