SAFETY PROFESSIONALS

KSGI Safety Professionals are industry leaders in training, experience, and attitude. We have developed a people first, empathy based, safety culture system throughout our company to help support both our project experts, and you.

PERSONNEL

- Respiratory Protection Specialists
- Gas Detection Technicians
- Project Safety Managers
- Safety Advisors and HSE Consultants
- COVID Screening and Testing Specialists

SAFETY EQUIPMENT AND SYSTEMS

All KSGI equipment is chosen, designed, and built to the critical Upstream safety challenges found in Western Canada. Our Respiratory Protection Units are second to none in coverage, operation, and the effective delivery of breathing air.

EQUIPMENT

- Respiratory Protection Units (High Pressure)
- Breathing Air Systems (SCBA and SABA)
- Gas Detection Monitors (Personal and Fixed)
- Confined Space Entry and Rescue Equipment
- COVID Screening and Testing (PCR and Antigen)

PROJECT SAFETY PACKAGES

Our safety systems are ideal for entire project coverage, from the design phase to project completion. Working in remote areas with little support, our years of experience make the difference in protecting your people and assets.

PROJECTS

- Lease Construction and Reclamation
- Drilling and Exploration
- Completions and Fracturing
- Flow Testing and Flaring
- Workovers and Production
